

Rainbow Talk, Walk, and Play!

Mother Nature teaches us that diversity makes our world beautiful and healthy. We naturally appreciate and respect the special variety of colours, shapes, sizes, ages, and abilities of the animals and plants that surround us.

We want the same for all children and families in our community.

This kit is designed to invite families and children to play, walk, and talk about diversity and inclusion. Your play kit includes...

Booklet: **Let's Talk** about diversity and how people may be different and the same in many ways. Children are curious about cultures, languages, appearances, abilities, ages, ethnicities, religions, etc.

Trail Guide / Scavenger Hunt: **Let's Walk!** Please visit the local trails in our community to observe and appreciate the variety that exists in the natural world. Keep your eyes open to the wonder and variety of

colours, shapes, sizes, and appearances!

Paint Set: **Let's Play!** We can think about and observe the beautiful diversity of colour that exists in nature and in people. What colours can children mix and create?

Tree Cookie / Sidewalk Chalk / Paint / Markers: **Let's Get the Word Out!** Tree cookies and chalk are environmentally friendly materials to create and share positive and kind messages of belonging and acceptance. Let's all display our tree cookie and chalk messages in our homes, neighbourhoods and in the community the week of October 5-12th!

Please  Like our Learning Together Facebook Page and post photos of the messages you and your family create.
